

Volcanoes: Global Perspectives

Filesize: 1.46 MB

Reviews

Good e-book and useful one. It typically does not expense an excessive amount of. I am just delighted to tell you that this is basically the finest book we have read during my very own existence and could be he best ebook for actually.

(Audra Hodkiewicz)

VOLCANOES: GLOBAL PERSPECTIVES

Wiley-Blackwell, 2010. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: "Overall I would highly recommend this work to anyone who wishes to understand volcanoes from a global perspective." (Bull Volcanol , 2011) "Volcanoes will satisfy everybody interested in this fascinating topic, but most of all this textbook is written for volcanologists, and advanced undergraduate and graduate students in Earth sciences." (Pure and Applied Geophysics, 2011) "This is an impressive new textbook on volcanoes written by two US volcanologists with considerable expertise. The text is informative, readable, well referenced and beautifully illustrated throughout with many helpful colour diagrams and photos . . . I expect many will purchase it and I strongly recommend it for all college libraries." (The Geographical Journal, 2011) "But these caveats notwithstanding, Featherstone has written an excellent and often passionate account of the relational geographies of counter-global resistance that makes important contributions to debates on social movements, resistance, and space; it will become a landmark text in the political geographies of resistance." (Area, 2011) "Overall I would highly recommend this work to anyone who wishes to understand volcanoes from a global perspective." (Bull Volcanol, 2011) "Essential. Upper-division undergraduates through professionals; general readers". (Choice, 1 November 2010) Included on the Outstanding Academic Title 2010 list by Choice Magazine (1 January 2011).
