REDISCOVERING MIXED-USE STREETS: THE CONTRIBUTION OF LOCAL HIGH STREETS TO SUSTAINABLE COMMUNITIES

Policy Press. Paperback. Book Condition: new. BRAND NEW, Rediscovering Mixed-use Streets: The Contribution of Local High Streets to Sustainable Communities, Peter Jones, Marion Roberts, Linda Morris, Local urban high streets have frequently suffered from neglect in comparison to town centres and out-of-town retail. Yet they have the potential to meet contemporary policy aspirations with regard to sustainability, social inclusion and place making. "Rediscovering Mixed-use Streets" is the first in-depth investigation of local mixed-use high streets. Drawing on case-studies in three different locations in England, the report provides a wealth of data and findings produced from a variety of sources, both quantitative and qualitative. In particular, the report: offers a comprehensive view of local high streets, from the point of view of transport, local residents, visitors, businesses and practitioners; provides a series of suggestions for their improvement; and demonstrates how local high streets belong to future sustainable communities. Providing a significant contribution to current interest in mobility, urban design and social inclusion, the findings have particular relevance for 'Sustainable Communities', 'Cleaner, Safer, Greener', and 'Place Matters' policies. The study will be of interest to policy makers and practitioners involved in the making and managing of streets and those with an interest in regeneration. "Public Spaces Series" - This series focuses on developing our understanding of how people use public spaces. Each report explores people's relationships with public spaces and, in turn, the impact that public spaces have on individuals and communities. The reports feed into important debates about social capital and social cohesion.
