

The Search for the First English Settlement in America: Americas First Science Center

By Gary Grassl

Authorhouse. Paperback. Book Condition: New. Paperback. 280 pages. Dimensions: 10.9in. x 8.2in. x 0.8in. About the Book This book describes the first attempt by the English to gain a foothold in today's United States, 22 years before Jamestown, Virginia. These Elizabethans investigated the natural resources of Virginia and North Carolina. Their positive findings encouraged the English to try again at Jamestown. American technology began in 1585 with a make-shift assay furnace in an unlikely spot—a small island inside the Outer Banks of North Carolina. This book describes what the noted archaeologist Ivor Noel Hume calls America First Science Center. But this name belies the humble birth of our technology in a small shed formed of horizontal logs. The area of technological activity has been pinpointed by archaeologists. However, the location on Roanoke Island of the First English Settlement in America is still disputed. According to government historians, it was located at Fort Raleigh National Historic Site. However, this volume casts doubt on the official line: In this book, The Search for the First English Settlement in America, Historian Gary Grassl re-examines the evidence both archaeologically and documentary and puts forth a convincing argument that at the Fort Raleigh site seeing...
