

## Fast Forward: The Future(s) of the Cinematic Arts

Filesize: 5.47 MB

### ***Reviews***

*This book will not be simple to get going on reading but extremely exciting to read through. Yes, it can be play, still an interesting and amazing literature. I am very easily could possibly get a delight of reading a written book.*

## FAST FORWARD: THE FUTURE(S) OF THE CINEMATIC ARTS

Columbia University Press, United States, 2016. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book. Cinema, the primary vehicle for storytelling in the twentieth century, is being reconfigured by new media in the twenty-first. Terms such as worldbuilding, virtual reality, and transmedia introduce new methods for constructing a screenplay and experiencing and sharing a story. Similarly, 3D cinematography, hypercinema, and visual effects require different modes for composing an image, and virtual technology, motion capture, and previzualization completely rearrange the traditional flow of cinematic production. What does this mean for telling stories? Fast Forward answers this question by investigating a full range of contemporary creative practices dedicated to the future of mediated storytelling and by connecting with a new generation of filmmakers, screenwriters, technologists, media artists, and designers to discover how they work now, and toward what end. From Chris Milk and Aaron Koblin's exploration of VR spherical filmmaking to Rebeca M ndez's projection and installation work exploring climate change to the richly mediated interactive live performances of the collective Cloud Eye Control, this volume captures a moment of creative evolution and sets the stage for imagining the future of the cinematic arts.
