

Theocentric Psychology - Synergizing Spiritual Intelligence and Empiric Science in the Field of Psychology

By Mark O Doherty

Lulu.com, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.In a world which overflows us with information, reality checks are required more than ever. Especially empiric psychology has become a useful tool in the wild jungle of cyberspace, giving us the means to assess the credibility of political leaders, omniscient gurus, and other so-called experts. But even though empiric science goes a long way in psychology, it does not go all the way. As already Albert Einstein said, Imagination is more important than knowledge. For knowledge is limited to all we now know and understand, while imagination embraces the entire world. Therefore imagination, intuition, empathy and purpose are also required; but these abilities cannot be manifested by the power of word alone; hence it is important to hone and train these essential prerequisites, which this book will guide you to do - if you dare to embark on this fantastic theocentric-psychological odyssey, where Mark O Doherty attempts to unravel the mysteries of the human mind, body and soul.
