By Montana State Board of Entomology

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from The Montana State Board of Entomology: Sixth Biennial Report, 1925 1926 Sir: In behalf of the Montana State Board of Entomology it gives me pleasure to transmit to you the Sixth Report which covers the years from 1923 to 1926, inclusive, no report having been issued in 1925. The work of this Board began in the year 1913 and has been continuous since that year. The primary object in passing the law which created this Board was to provide for the investigation and control of Rocky Mountain Spotted Fever, though the study the study of any insect borne diseases of man and domestic animals was authorized. From the first, Spotted Fever has been almost the only subject studied. The problem has turned out to be a long and difficult one. There was very little known in medical science or in entomology to guide and aid us, and we have been obliged to make advances into the unknown in any progress we have made. It has been the policy of the Board to enlist the cooperation...
