

Securing Business Data: Establishing a Core Value for Data Security

By MR Nathan James Neil

Createspace Independent Publishing Platform, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.This book covers topics that are vital to establish a core value of data security and prevent potential data breaches. We take a look at the hardware and software components like firewalls, antivirus, and anti-spam. We also take a perspective on securing your website, mapping out where your data and devices are located, in addition to providing the reader with information to establish strong employee policies and procedures. A unique quality of this book is that it even goes into detail on how to present your new core value for data security to employees. This book is designed to help managers, technology coordinators, and human resources professionals to have all the procedures in place to protect their businesses from data breaches. The first chapters of this book look at the hardware and software side of protecting your business or organization. It s important to have a good foundation of security in terms of hardware appliances and security software. Many security consultants focus on attacks that come from external forces. External attacks are a substantial threat;...
